Changes in proposal policies take effect on January 30

Researchers preparing proposals should note that updates to the NSF Proposal & Award Policies & Procedures Guide (PAPPG) take effect on January 30, 2023.

Researchers submitting proposals on or after January 30 must follow PAPPG 23-1 and use updated versions of the biographical sketch and current and pending support forms.

For more information:

- Consult the summary of changes in PAPPG 23-1.
- Read more about NSF-approved formats for the biographical sketch and current and pending support.
- Register for a webinar on the updated biographical sketch and current and pending support formats to be held on January 19.

Please contact the relevant program officers with any questions.

Updated program due dates

Due to the policy changes outlined above, several programs have adjusted their deadlines or submission windows to allow more time for PIs to prepare their proposals and use the new forms. The updated due dates are as follows:

**Developmental Sciences**: February 6, 2023, deadline

**Science and Technology Studies**: February 9, 2023, deadline

**Human Networks and Data Science – Infrastructure**: February 9, 2023, deadline

**Perception, Action & Cognition**: January 15 - February 15, 2023, submission window

More winter and spring due dates

January 19
Build and Broaden (target date)

January 23
Ethical and Responsible Research (target date)
January 16 - 26
Biological Anthropology Senior Research Awards and Doctoral Dissertation Research Improvement Grants (submission windows)

January 26
Methodology, Measurement and Statistics (deadline)

February 2
Science of Organizations (target date)

February 8
Science of Learning and Augmented Intelligence (target date)

February 9
A Science of Science Policy Approach to Analyzing and Innovating the Biomedical Research Enterprise (target date)

February 10
Science of Science: Discovery, Communication and Impact (target date)

February 13
Cognitive Neuroscience (deadline)

February 15
Dynamic Language Infrastructure NEH Documenting Endangered Languages and Doctoral Dissertation Research Improvement Grants (target dates)

February 23
Strengthening the Cyberinfrastructure Professionals Ecosystem (deadline)

February 23
Training-based Workforce Development for Advanced Cyberinfrastructure (deadline)

March 3
Analytics for Equity Broad Agency Announcement

March 15
Strengthening American Infrastructure (deadline)

April 3 - 14
Incorporating Human Behavior in Epidemiological Models (submission window)

SBE supports early-career scientists with 25 new postdoctoral fellowship
awards

The U.S. National Science Foundation’s Directorate for Social, Behavioral and Economic Sciences has awarded postdoctoral fellowships to 25 early-career researchers. The fellowships will support research on a range of subjects including the development of adolescent risk-taking behavior, factors that contribute to successful forest restoration, the archaeology of the antebellum south and language processing in people who speak multiple dialects.
